

Stoke St Mary Play Park Update

Considerable work has been quietly going on by members of the Working Party, from clearing the old equipment, obtaining information and quotes for new equipment, and researching and applying for grants.

We are pleased to announce that we have successfully secured funds from a number of providers, including the most significant amount from the National Lottery. This means we can proceed, and we are now looking to finalise the design, understand timescales and obtain the necessary approval from the Parish Council.

We look forward to bringing you further updates over the coming weeks and we take this opportunity to express our thanks to those members of the working party who have helped move this project along and secure funding to progress the project
